

Hi Vickie ^{and} Jim,

Here I am back at the
ole grind. It was much more
fun to be in London and
enjoying the leisure life!

I really thank you for
the wonderful week with
you both. I loved every
minute of it. You know of
course that a trip like
that would never have
been possible except for your
invitation.

Every day was so special
but our day in France, Vickie,
was really great. I have to
laugh when I think about
us bumbling around in

Calais, laughing and being silly
tourists - wish I'd gotten a pic
of that lady motorcyclist!

Thank you, too, Jim for all
that driving you did so we
could get to Ipswich. That was
a long way to go for a bee!
I loved it!

My plane ride home was
long and uneventful. I got
to see Iceland (which was very
icy-looking) and we flew over
the Canadian Rockies which
were spectacular. Of course it
was raining in Seattle but it
was a "warm" rain by comparison.
The kids and Dick met me with
great anticipation (they knew I
had gifts!) so all went well.

I hope you have a wonderful
time on your trip and then
getting moved to study. Please
send cards & letters.
